

Expense Submission Form Changes Effective 09/12/24

ISS has made improvements to the Expense Submission Form on our Portal.

The revised Expense Submission Form is more mobile friendly and mobile aware which means that it will look better on both a desktop, laptop, phone, and tablet. It will also work better with your phone or tablet's camera app.

Name and Email

The form will no longer show your name and email address. We know who you are because you logged into our Portal, therefore we don't need to show it. It just takes up space on the form. This information is still being gathered and sent along with your submission.

Phone

We have removed this field from the form. It was optional and the majority of our users never filled it out. We know how to get in touch with you if we need you.

Expense Type

This is a **required** field. It is unchanged. We still need you to tell us what type of expense you are submitting: Mileage, Reimbursement, Brokerage, or Vendor Invoice.

Earliest Date on Expense

This is a new **required** field. We need you to enter the earliest/oldest date of service on your expense submission. It needs to be entered in this format: **mm/dd/yyyy**. There is a calendar pop-up to help you.

This is step one of us working to incorporate this into our processes so that we can find expenses with dates of service that may be at risk of billing deadlines.

Supporting Documents

This is a **required** field.

We have updated the upload functionality to accept images using your mobile device's camera. By doing this, we are able to tell your device's camera what file type and resolution to provide. This means that a photo taken while uploading an expense will not go over our individual file size limitations.

You can now click *Add Files* multiple times and when you return to the form the files you previously added for submission will still be there. This includes when you click *Add Files* and take a picture on your mobile device with your camera app. You can take a picture, add the file, take another picture and add it, and both pictures will be there when you go back to the form.

We will notify you on every file you upload if the individual file is too large, is not an accepted file type, or goes over the max overall submission size.

You can easily click to remove an individual file or all files.

- Allowed file types: **gif, heic, jpg, jpeg, pdf, png**
- Each individual file cannot exceed: **10 MB**
- Each submission cannot exceed: **20 MB**

How to Add Files

After you click *Add Files* on the form, a box will pop-up.

Submit Expense

Expense Type *Required

1 Click here to select files

Cancel

2 Attach

Comments

1. **Click on the gray box that says *Click here to select files*.** Select files by taking a picture with your device's camera app or choosing files already on your device. You can also drag and drop files directly onto the gray box without having to click it first.
2. **Click on the blue *Attach* button.** This will add the files you just selected and return you to the Expense Submission Form.

Files will not be submitted to ISS until you return to the Expense Submission Form, finish completing all required fields on the form, and click the blue *Submit* button at the bottom of the Expense Submission Form.

Participant Name

This is a **required** field. We need you to tell us which Participant the expense is for. Please choose the Participant from the drop down list.

If you need to submit an expense or invoice for a Participant that is not in your drop down list, please select *Other*. A new field will be exposed called *Other Participant*. This new field is **required** once *Other* is chosen from the drop down list. Please type in the name of the Participant you are submitting an expense for. It is important that you enter the full name of the Participant correctly. Incorrect information entered in this field may result in a delay in processing or rejection of your submission.

The *Other* option should be used, for example, when a user provides invoiced services such as classes to a Participant they are not otherwise connected to via plan roles such as circle of support, support broker, etc.

Participant Name *Required

Other

Other Participant *Required

Are you the payee? / Payee Name

This is a **required** field. It is unchanged. If you are the payee, choose *Yes*. If you are not, choose *No* and a new field will be exposed called *Payee Name* for you to type in who the payee is. For example, if ISS needs to pay your Organization instead of you as an individual, this is where you would enter the name of that Organization.

Are you the payee? *Required

Yes No

Payee Name *Required

Comments

This is not a required field. It is unchanged. This is where you would add an optional comment if you needed to.

Note: Unlike Timesheet Uploads, Expense Uploads are not viewable on the Portal until processing is finished.

Updated 10/3/24.
