Viewing My Expenses page as an Organization

If you have a corporate association that was submitted and approved, you will have permission to view your organization's *My Expenses* page.

From the *My Expenses* page, click on the *Viewing as:* drop down menu and select the organization that you want to review.

Once the organization is selected, the page will update so you can view the organization's details and expenses.

Not seeing your Organization?

If you do not see an association to an organization, please reach out to the Self-Direction Coordinator assigned to your case so they can assist you with the application process.

Updated 04/08/25.
