

Why is the shift I already approved still showing as pending circle review?

Why is the shift I have already approved still showing as pending circle review in My Staff Work?

Two reasons:

1. It is still waiting for other circle approvers to review the shift. In this case, the shift will be marked with a green checkmark.
2. The shift was resubmitted after being returned by the other circle or ISS and being corrected by the staff. This shift needs to be reviewed.
