

Company Access Code

First Time Logging in

When logging into UKG for the first time, you will be asked for a company access code. ISS' Company Access Code is **ISS03**

 This is required only for the first time you login. However, if you ever delete the App, you'll have to put the code in again.

A screenshot of the UKG mobile app's first-time login screen. At the top is the UKG logo in teal. Below it, the word "Welcome" is centered. A message states, "Before you can log in, we'll need your company's code". There is a light gray rectangular input field with the placeholder text "Company Access Code *". Below the input field is a light gray button labeled "Next". At the bottom, there is a blue link that says "What is my Company Access Code?".

UKG

Welcome

Before you can log in, we'll need your company's code

Company Access Code *
