

Company Access Code

First Time Logging in

When logging into UKG for the first time, you will be asked for a company access code. ISS' Company Access Code is **ISS03**

This is required only for the first time you login. However, if you ever delete the App, you'll have to put the code in again.

The screenshot shows the UKG mobile app login screen. At the top is the UKG logo in teal. Below it is the word "Welcome" in a dark grey font. A message reads "Before you can log in, we'll need your company's code". Below this is a light grey input field with the placeholder text "Company Access Code *". Underneath the input field is a "Next" button. At the bottom of the screen is a blue link that says "What is my Company Access Code?".
